PERSONAL SUMMARY

Self-taught front-end developer with over three years of professional experience working with React, TypeScript, and Next.js. Experienced in full codebase migrations, feature development, and automated testing. Comfortable taking sole ownership of a front-end and committed to continuous improvement through self-directed learning and personal projects

WORK EXPERIENCE

Front-end Developer — TradePeg (Apr 2023 – Present)

Sole front-end developer at SaaS company

- Migrating the existing codebase from Vue and JavaScript to React and TypeScript
- Implementing new product features end-to-end
- Writing and maintaining automated tests using Vitest and Cypress
- Working independently across all areas of the front end, from architecture decisions to delivery

MAIN PROJECTS

The OdinBook

Developed a full-stack social media platform, similar to Facebook, where users can create accounts and make posts.

📦 React, Jest, Node, MongoDB
